Beauty Therapy Career pathway

Beauty Therapy is a practical and creative industry focused on helping people look and feel their best. Students develop skills in skincare, makeup, nail treatments, massage, and client care while learning about health, hygiene, and professional salon practices. The pathway prepares learners for careers in salons, spas, retail, and the growing aesthetics industry, with opportunities to progress into specialist treatments, management roles, or self-employment.

Beauty Salon Assistant

Supports therapists by preparing treatment rooms, greeting clients and assisting with basic treatments.

Spa Assistant

Helps with the running of spa facilities and supports therapists with treatments and customer care.

Beauty Retail Advisor

Advises customers on skincare, cosmetics and beauty products in retail environments.

Lash Technician

Assists with eyelash treatments and learns advanced lash techniques.

Spa Therapist

Provides a range of treatments including massage, facials and body therapies in spa environments

Advanced Skincare Specialist

Delivers specialist skin treatments such as chemical peels or advanced facials (with further training).

Beauty Trainer / Assessor

Teaches beauty therapy skills in colleges or training academies.

Aesthetic Clinic Assistant

Supports aesthetic practitioners in clinics offering treatments such as skin rejuvenation

Salon Owner

Runs and manages a beauty salon, including staff, treatments and business operations.
